

## **UNVACCINATED MEMBERS**

We believe that most of our members are fully vaccinated, but we know that some are not. Though there are no mandatory mask orders, and few social distancing orders, we have an obligation to act responsibly. Unvaccinated members are vulnerable to infection and even fully vaccinated members may be infected the virus; they may or may not experience symptoms of varying degrees.

We ask all members to act accordingly and safely distance at all times, everywhere. We ask members to socialize outdoors, and not to congregate indoors. We recommend members to wear a mask indoors. These are the core of the "BBQ" rules.

Unvaccinated members: We ask unvaccinated members to avoid any situation where they cannot safely distance or mask themselves from others, including social functions or games play. If you are an unvaccinated member, please avoid such social functions or crowded games play. We appreciate that consideration.

The BBQ rules are as follows:

- Please maintain safe distancing everywhere at all times.
- Please socialize outdoors
- Masks are recommended indoors. People may choose to wear masks outdoors if they wish.
- No congregating indoors - maximum two people in the washroom, two people in the locker room. If there are 10 people in the clubhouse, please do not enter.
- No self-serve food or beverage stations

This is a matter of ongoing consideration by the Board, and we value your input and cooperation.

Thank you, WVLBC
